RE: District 22 – Payment of New Traffic Signal
at Bardstown Rd. & Ferndale Rd.

To Whom It May Concern:

Louisville Metro Public Works will serve as the internal pass through agency regarding the Metro Council District 22 payment of \$2,500 from its Neighborhood Development Fund (NDF) for the purchase and installation of a new traffic light located at the intersection of Bardstown Road and Ferndale Road, to control the traffic flow with the recent addition of a Frisch's Restaurant at this location. As the pass through agency, Metro Public Works would receive the District 22 NDF funds and send Frisch's Restaurant, Inc., the \$2,500 check.

Councilman Robin J. Engel, Metro Council District 22, submitted the necessary City Agency Request to verify that the District 22 NDF funds will be used in the amount of \$2,500 to financially support a portion of the cost of the aforementioned traffic signal purchase and installation.

Councilman Robin Engel,

Thanks for the help and support for the Ferndale Bardstown Road redlight. The light is now operating, cross walks are in, as well as cross walk lights. Give me a call if I can be of any assistance to you. Please write your pledge check of \$2500.00 made payable to Ferndale Bardstown Road Light Project, and mail to Frisch's Restaurants, Inc. 2800 Gilbert Ave. Cincinnati, OH. 45206 attention David Rowe. A contact number for David Rowe is (513) 559-5298. Thank you for your support of this project.

Sincerely,

Jim Bradley

Subject: US 31E at Ferndale

CM Engel,

Thank you for your participation in the effort to address the traffic operation of the subject intersection. Through the State's permitting process the Frisch's development was able to gain access to Bardstown Road at an intersection controlled by a new signal. The Metro PW, Metro Council, State Dept of Highways, the developers and others were involved in this collaboration to address the traffic operation of this intersection.

Our involvement was the approval of this electrical device as well as providing much of the equipment necessary for the signal. Our understanding is that the developer was responsible for the installation cost, misc. equipment and detectors and the labor, with some of this costs offset financially by others.

Thanks again for your participation in this process.

Brian
